

K.D. Polytechnic Patan
Department of Computer Engineering
Computer Hardware Architecture and System Maintenance (DI05007011)
Semester-5th
Assignment -1
CO-1(Unit-1)

1. Draw the block diagram of a computer system and explain each component.
2. Explain all components of a PC/Laptop with neat diagram.
3. Explain BIOS, UEFI and CMOS in detail. Compare BIOS and UEFI.
4. Explain the components of a laptop with neat diagram.
5. Explain Front Panel and Back Panel ports with neat diagram.
6. Explain Hardware, Software and Firmware with suitable examples.
7. Explain the latest PC/Laptop specifications (Processor, RAM, Storage, GPU, Display, Ports, Connectivity and Operating System).

Department of Computer Engineering
Computer Hardware Architecture and System Maintenance (DI05007011)
Semester-5th
Assignment -2
CO-2 (Unit-2)

1. Draw and explain the Block Diagram of the 8085 Microprocessor.
2. Draw and explain the Pin Diagram of the 8085 Microprocessor.
3. Explain the Registers, ALU, Control Unit and Buses of the 8085 Microprocessor.
4. Differentiate between RISC and CISC Architecture with suitable examples.
5. Explain the Motherboard with neat block diagram and explain its components.
6. Explain the Chipset Architecture (Northbridge and Southbridge) with neat diagram.
7. Explain Expansion Buses and Slots (ISA, PCI, PCI-E, PCI-X, AGP, USB and VESA Local Bus).
8. Explain the working of SMPS with diagram.
9. Explain Storage Interfaces (SATA, NVMe and RAID).
10. Explain the types of Motherboards (AT, ATX, Micro-ATX and Mini-ITX).
